THE POWER OF PARTNERSHIP

C-17 CAPABILITIES

Extant AEROSPACE	**Extant Aerospace** offers advanced avionics upgrades and solutions to enhance the performance, reliability, and capabilities of aircraft systems.
HARTWELL	**Hartwell** is a leader for latches and flush catches including housing assembly, engine toggle assy, lock release lever, catch strike, mortise latch, lock trigger and more.
AEROFLUIDPRODUCTS	**Aero Fluid Products** offers a variety of valves including hydraulic, engine, pneumatic, bleed air, anti-ice, pressure regulating, and fuel along with cabin pressure controls and electromechanical and linear actuators.

Extant AEROSPACE

ELECTROMECHANICAL INDICATORS

Extant Aerospace has a large variety of electromechanical indicators which provide attitude indication across a broad spectrum of applications:

- The Horizontal Situation Indicator (HSI) provides pilot with heading, course, single or dual pointers, remote or manual heading and course pointers, DME readouts, and glideslope.
- The Bearing Distance Heading Indicator (BDHI) displays distances up to 1999 nautical miles (NM) with a bearing pointer which provides information to select station.
- The Attitude Director Indicator (ADI) 2 or 3 axis display of pitch, roll or pitch, roll, and azimuth. Additional features such as rate of turn, glideslope and localizer can also be added.

HARTWELL

Hartwell is the industry's first choice in the design and manufacture of quick access latching systems for aircraft and the first company that aircraft engineers call on for design assistance on all new latching applications.

Hartwell Corporation (83104) and Integrated Procurement Technologies have entered into an agreement to support military customer needs worldwide. This proactive partnership enables us to provide optimized solutions for high performance components to military operators around the world.
