

THE POWER OF PARTNERSHIP

# E-3 CAPABILITIES

	<p><b>Collins Aerospace</b> excels in avionics, lighting systems, power transmission systems, wheels and brakes, and landing gear systems, which include the main, nose and wing landing gear assemblies.</p>
	<p><b>Eaton's</b> broad portfolio of hydraulic, fuel, conveyance and actuation products provides a single source for power management.</p>
	<p><b>Adams Rite Aerospace</b> has over 80 years experience offering door latching systems, flight controls, door handles, and oxygen tanks, masks, and regulators.</p>
	<p><b>ITT Aerospace Controls</b> manufactures linear and rotary actuators, fuel, hydraulic, pneumatic, motor and solenoid operated valves, pumps, and electro-mechanical switches.</p>
	<p><b>Korrry</b> has been a trusted name in human-machine interface (HMI) solutions providing state-of-the-art switches, cockpit controls, night-vision filters, and high-performance KDM displays.</p>
	<p><b>Stellant Systems</b> provides radio frequency amplification solutions for satellite communication, electronic warfare, radar, and secure communication, including TWT, TWTA, MPM, SSPA, CFA, klystrons, magnetrons, and thyratrons.</p>
	<p><b>Johnson Electric</b> offers advanced motion control systems and solutions, providing precise and reliable actuation components and motors.</p>
	<p><b>Aero Fluid Products</b> offers a variety of valves including hydraulic, engine, pneumatic, bleed air, anti-ice, pressure regulating, and fuel along with cabin pressure controls and electromechanical and linear actuators.</p>
	<p><b>Acme Aerospace</b> offers products ranging from Lithium-Ion &amp; Ni-Cad main aircraft batteries, battery chargers/power supply, battery back-ups, and test equipment/current transformers.</p>
	<p><b>ColumbusJACK/Regent</b> supplies high-quality hydraulic jacks and lifting systems ensuring safe and efficient lifting, positioning, and maintenance of heavy equipment and structures.</p>

# E-3 POWER SUPPLY

**Acme Aerospace Inc.**

## **AMPS-2000 EMERGENCY BACKUP POWER SUPPLY**

P/N 154BS101-1  
NSN 6130-01-436-0627

Acme Aerospace has over 30 years of experience in the custom design and manufacturing of aviation and aerospace battery systems and similar support products. Acme established itself as a leader in emergency backup batteries with the release of its Airborne Modular Power Supply (AMPS). The AMPS family leveraged off the reduced weight of sealed Nickel Cadmium cells coupled with an internal charger and controller.

Typically selected in applications where duty cycle and weight were critical, Acme has produced an excess of 5,000 units. The AMPS-2000 supplies 200 watts for 30 minutes.
